White Vanilla Gray/Silver

Bronze Black

Wand Colors from Left to Right:
Pure White, White, Oak/Natural, Mahogany, Light Gray, Ebony

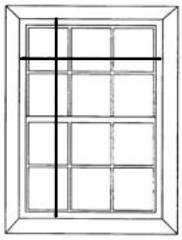

PANEL TRACK HOW TO MEASURE

Note: Projection of window handles / cranks could interfere with panel track panels.
Refer to "mounting depth requirements" on page 12.

Inside Mount (IM) Installation - Window

To find width: Measure the opening across the top where the headrail is to be installed from inside of jamb on left to inside of jamb on right. **Round the measurement down to the nearest 1/8". Refer to mounting depth requirements**.

To find height: Measure from the inside top of the opening on the left, at the center, and on the right to the sill; **round the measurement down to the nearest 1/8" and note the smallest dimension. Do not make any allowances: the factory will make all adjustments so the headrail will fit the opening properly and the panels will clear the sill by 1/2"**.

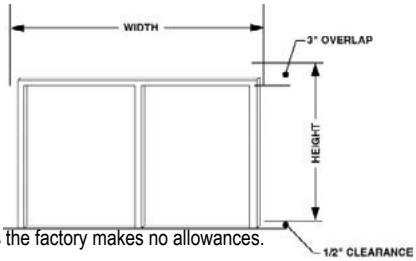

Inside Mount

Outside Mount (OM) Installation - Patio Door / Room Divider

To find width: Measure the width of the area to be covered at the place where the headrail will be installed to the nearest 1/8". Blind should overlap opening at least 4" on each side.

To find height: Measure the height of the area to be covered and **round down to the nearest 1/8"**. Blind should extend **at least 3" above opening or window moulding**. For ceiling-to-floor installations, deduct 1/2" for proper clearance.

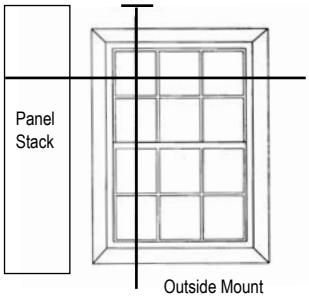

Specifying OM measurement means the factory makes no allowances.

Outside Mount (OM) Installation – Window

To find width: Measure the width of the area to be covered at the place where the headrail will be installed to the nearest 1/8". Blind should overlap **opening at least 4"** on each side to ensure privacy. To calculate stack dimensions, refer to page 7.

To find height: Measure the height of the area to be covered and **round down to the nearest 1/8"**. Blind should extend **at least 3" above and 3" below opening or window moulding.**

Outside Mount

Special Measuring & Installation Considerations

Caution: Panel Tracks installed on windows near wall or baseboard heaters must clear the heaters by 12" above and 6" to the side.

Stretching of panel materials is probable with Textured materials:

IM Mount - we do not recommend IM mount due to probable stretching

OM Mount - extra adjustment recommended for placement of mounting brackets allowing panel clearance above the floor to anticipate panel material stretching:

• material can stretch up to 1" length

OPTIONS & FEATURES

Panel Attachment
- Heavy-duty Velcro sewn to backside of material.
- Provides easy panel installation & removal to carrier glides.

Controls
- Wand draw (Wand size is 36")
- Available in colors of Pure White, White, Light Gray, Mahogany Rush, Ebony and Oak/Natural. See color chart for color that is pre-selected to best coordinate with your chosen shade color.

Bottom Rail Options

Heat Sealed Aluminum (~1-1/4")

Below fabrics are only available with Omni Bottom Rail

- 1% , 3%, 5% Catalina, and Finnley Light Filtering

Omni Bottom Rail (~ 1-1/8", only front face of rail is wrapped)

Available in colors of white, vanilla, bronze, black and silver. See color chart for color that is pre-selected to best coordinate with your chosen shade color.

Heat Sealed

Omni Curved
(Wrapped)

FABRIC VALANCE

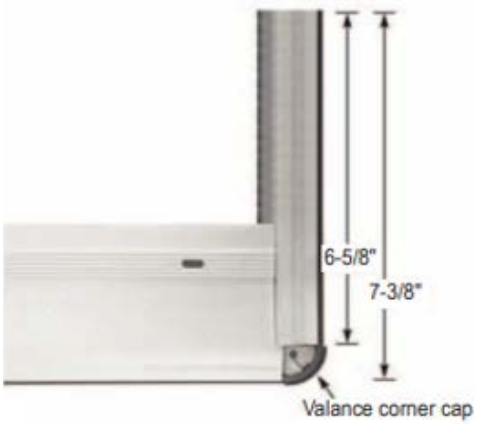

- Available with Panel Track or as a stand alone cornice.
- Refer to Collection Information Section for available pattern.
- Has clear edge groovers to hold the coordinating fabric in place.
- Standard height 3-5/8”
- Direction of fabric insert follows shade installed below.
- If valance is wider than material width, valance fabric insert will be made with a center seamed like image shown below.

- Default return length:
  - Inside Mount: No returns
  - Outside Mount: 6-5/8* (overall 7-3/8”)

Note: When ordering returns, valance corner cap adds 3/4” to the valance return depth.

FINISHED DIMENSIONS

For all options below,
Shade Height = Ordered Height - 1/2" (Inside Mount)
Shade Height = Ordered Height (Outside Mount & Net Mount)

Panel Track with NO TOP TREATMENT	Inside Mount (IM)	Outside Mount (OM)
Panel Track*	Ordered Width -1/4"	Ordered Width
Overall Panel Width	Ordered Width -1-3/8"(± 1/8")	Ordered Width -7/8" (± 1/8")

Panel Track with FABRIC VALANCE	Inside Mount (IM)	Outside Mount (OM)
Panel Track*	Ordered Width -1/4"	Ordered Width
Overall Panel Width	Ordered Width -1-3/8"(± 1/8")	Ordered Width -7/8" (± 1/8")
Valance with no returns	Ordered width -1/8"	Ordered width +1"
Valance with returns	Ordered width +2 3/8"	Ordered width +2 3/8"

* Panel width allowance: -1 3/8" (IM) and -7/8" (OM)

FABRIC VALANCE ONLY	Inside Mount (IM)	Outside Mount (OM)
Valance with no returns	Ordered width -3/16"	N/A
Valance with returns	N/A	Ordered width +1 3/8"

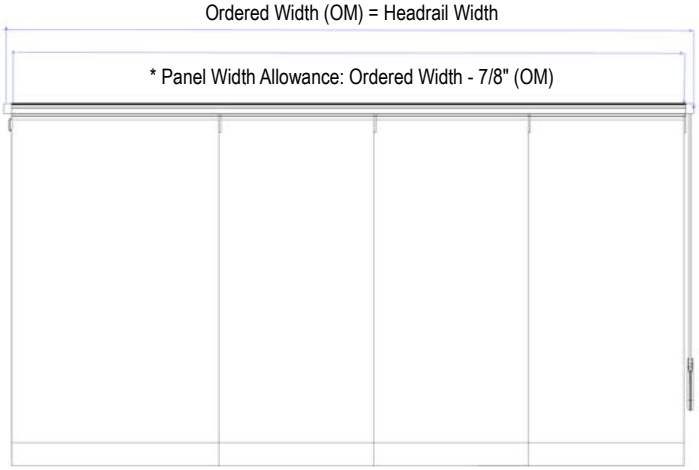

Ordered Width (IM)

Headrail Width: Ordered Width - 1/4"

Ordered Width (OM)

Ordered Width (OM) = Headrail Width

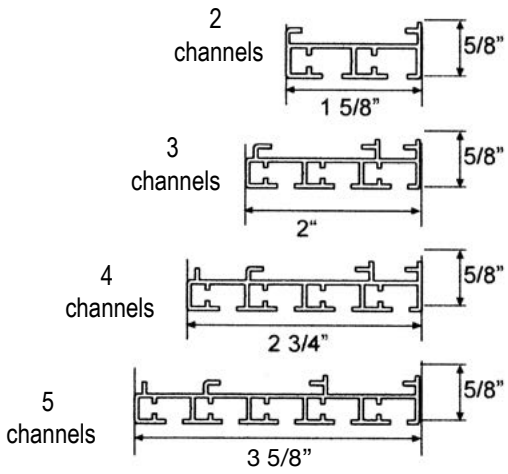

Panel Quantity and Configuration Chart

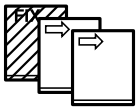

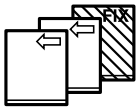

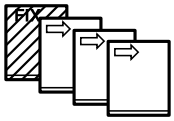

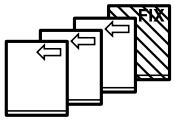

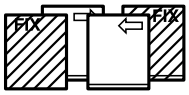

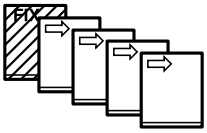

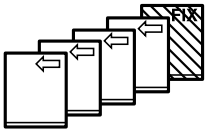

Panel Stack Configurations

- Specify panel configuration from choices below.
- Approximately 3" material overlap when panels in fully closed position.
- Each stacking side will have 1 fixed panel.

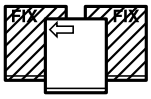

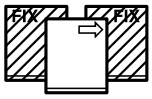

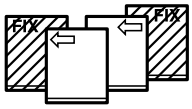

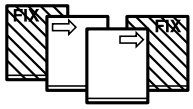

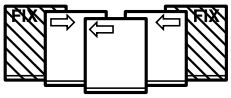

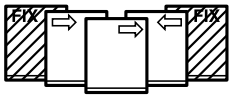

Split Stack Configurations Available

- Each panel comes with wand.
- Panels not interconnected with each other; each panel hand operated independently and can be positioned any place along the track

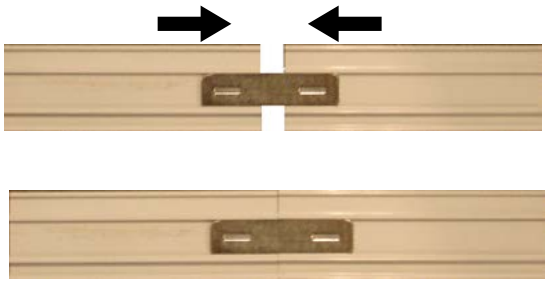

Number of Panels	(Overall Width)	Stack Position / Configurations ("Room View" - Each stacked side will have 1 fixed panel)		
		Single Stack Left Stack	Single Stack Right Stack	Split Stack NOTE: Comes with Dual Wand (if ordered with wand control)
2 Panels (1 overlap)	21" - 53 7/8"	**2L** – two panels stack left (2 channel track) 	**2R** – two panels stack right (2 channel track) 	N/A
3 Panels (2 overlaps)	54" - 75 3/8"	**3L** – three panels stack left (3 channel track) 	**3R** – three panels stack right (3 channel track) 	N/A
4 Panels (2 or 3 overlaps depending on number of stacks)	75 1/2" - 83 7/8"	**4L** – four panels stack left (4 channel track) 	**4R** – four panels stack right (4 channel track) 	**2L2R** – two panels stack left, two panels stack right (2 channel track) 
5 Panels (4 overlaps)	84" - 216"	**5L** – five panels stack left (5 channel track) 	**5R** –five panels stack right (5 channel track) 	N/A

PRODUCT SPECIFICATIONS

Panel Track Profile
- White painted aluminum profile.
- See mounting depth requirements on page 12 for panel track sizes.

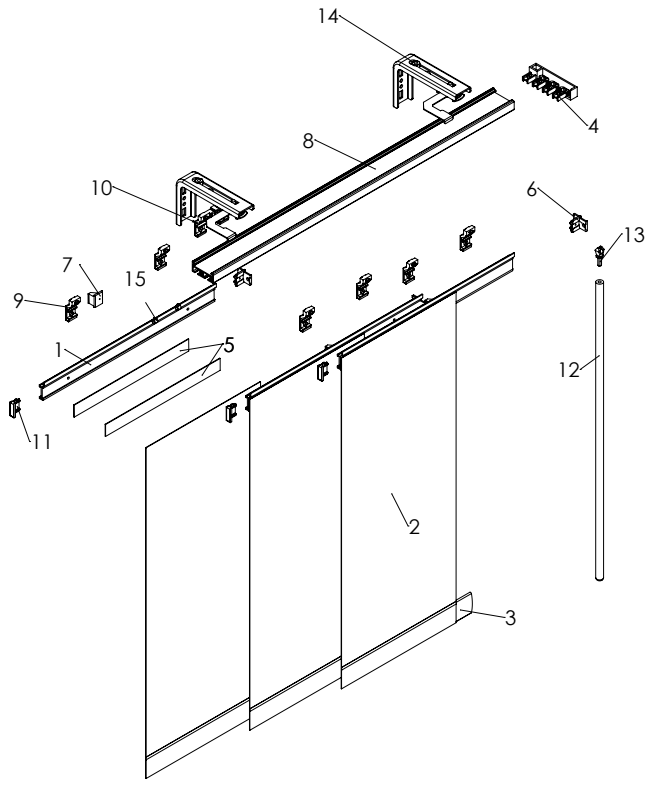

Panel Track Splice
- Automatically comes with any window opening over 144" wide – track ships from factory in (2) equal size pieces.
- Recommended (request when placing order) with window openings over 100" wide to reduce risk of freight damage and provide easier handling by installers.
- Splice plate easily & securely connects separate tracks together to operate as a single track unit.
- Installers prefer the convenience of handling smaller tracks on the job site, then connecting together at installation.

Panel Size / Stacking Width
- **12" Minimum Panel Width** *(includes 3" for overlap).*
- **12" Minimum Panel Height**.
- **46"** Maximum **Panel Width** *(includes 3" for overlap).*
- **144"** Maximum **Panel Height**.
- Individual panel size varies depending on overall shade width & panel configuration.

NOTE: The smaller the panel width, the narrower the stacking space
To calculate stacking width; overall width + (number of overlaps x 3) then divide by number of panels

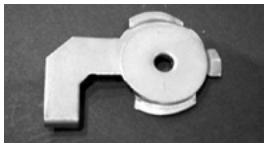

Example # 1 – 3 panel 112" W + 6 (2 overlaps x 3 = 6) = 118 divide by 3 panels = 39-3/8" stacking / panel width
Example # 2 – 4 panel 112" W + 9 (3 overlaps x 3 = 9) = 121 divide by 4 panels = 30-1/4" stacking / panel width

PANEL TRACK SPECIFICATIONS

Panel Track Brackets

(A)
Inside / Ceiling Mount
Used on 2 and 3 channel track
Bracket Clip
(Part #1017060)

(B)
Inside / Ceiling Mount
Used on 4 and 5 channel track
Bracket Clip
(Part #1017061)

(C)
Outside / Wall Mount
Used on all tracks
Installation Bracket
(Part #30-CA-06600)
